Global solutions - Precise engineering - Sustainable thinking—

ALBEDO Telecom designs and delivers high-value technology solutions for critical tele- com, energy, and transport networks. As part of our global responsibility, we are fully committed to the protection of the environment, compliance with applicable legal re- quirements, and the prevention of pollution in all our activities. This commitment is a fundamental part of our business strategy and is implemented through our Environ- mental Management System (EMS), based on the ISO 14001:2015 standard.

Principles of Our Environmental Policy

- Preventing pollution and minimizing environmental impacts associated with our oper- ations, products, and services.
- Complying with applicable legal, regulatory, requirements in countries we operate.
- Improving our environmental performance by defined and measurable objectives.
- Managing responsibly energy, water, materials, waste and recycling.
- Evaluating significant environmental aspects in all stages of our activity, including product design, manufacturing, distribution, and end-of-life.
- Raising awareness and training employees and suppliers in environmental
- Communicating this environmental policy to all internal and external interested par- ties, including distributors, subsidiaries, customers, and regulatory authorities.

Availability and Communication

This policy is approved by ALBEDO’s Executive Management and is available for consul- tation by any interested party. It is distributed to partners, contractors, and suppliers, and published as part of ALBEDO’s official documentation system.
